Safety Instructions:

- Make sure that the product is suitable for the intended use.
- Do not produce small parts that pose a choking hazard, especially when used by children.
- Avoid improper use of the product and overloading drawers to prevent injuries and reduced functionality.
- Keep the product away from water and damp environments to avoid damage and potential injury.
- Use the product on stable, level surfaces to prevent it from tipping over or slipping.
- Ensure that the product is stable and securely mounted, especially when stacking, to prevent it from tipping over.
- Avoid hanging drawers above head height to minimise the risk of them falling.
- Drawers should only be filled with the intended small and flat items and should be properly closed to reduce the risk of crushing, suffocation and unauthorised removal.
- Observe all manufacturer's instructions for use in automatic carousels.
- The product may be heavy; use appropriate techniques when lifting and moving.
- Keep small children away from the product to avoid injury or crushing.
- Do not stack above the recommended height to avoid instability.
- Do not store sharp and pointed objects suitable for safe use in the drawers.
