Safety Instructions:

- When assembling the product, follow the instructions carefully to ensure safe and stable use. Follow the safety instructions to avoid injury during assembly.
- Ensure that all parts are firmly tightened to avoid the risk of injury. Regularly check the connections and screws for tightness.
- Do not use the changing bench as a playground or to overload it beyond the specified maximum load capacity. The bench should not be overloaded according to the specified load capacity. The bench must not be overloaded; observe the maximum weight.
- The bench must be installed on a level surface to prevent it from tipping or falling over. Risk of falling due to improper assembly or use on an uneven surface. Ensure the stability of the bench; check regularly for wear.
- Designed for use in damp rooms, but protect from direct moisture and prolonged contact with water. Safety instructions for use in damp rooms to prevent corrosion or damage to the product. Do not use the bench in damp rooms if it is not designed for this purpose.
- Regular inspections for damage or wear and tear should be carried out to ensure safety. Check sharp edges or corners for damage before use. Pay attention to the stability of the bench; check regularly for wear.
- Read the installation instructions carefully before use.
- The bench may only be used by the intended number of people to prevent it from tipping over.
- Pay attention to balance during use, especially with uneven weight distribution.
- The bench is not suitable for children under the age of 14 unless supervised by an adult. The bench is not suitable for children under 3 years of age; supervision recommended. Caution: Use only under adult supervision when children are nearby. Use by children only under adult supervision.
- The product is designed for indoor use, please do not use outdoors.
- Risk of slipping on slippery floors if suitable shoes are not worn.
- Avoid risk of injury due to improper use; only use as intended. Risk of suffocation due to improper use or collision with other objects. Risk of injury from sharp edges on metal parts that have not been deburred.
- Avoid tripping hazards by positioning the bench appropriately.
