Safety Instructions:

- Ensure that the bench is placed on a level, stable surface to avoid the risk of tipping over, slipping and falling.
- Avoid excessive strain or sitting and jumping on the bench to prevent damage to the structure. The bench should only be used by the specified number of people at the same time.
- Keep the bench away from water sources and ensure weather protection to prevent corrosion and ensure longevity. The bench is designed for indoor use and should not be used outdoors or in humid environments that exceed the specified moisture resistance.
- Assembly should be carried out in accordance with the enclosed instructions and all screws and fasteners should be tightened securely to ensure stability and eliminate safety risks.
- Warning of the possibility of crushing injuries when installing or using the product. Be careful with sharp edges.
- To avoid damage, do not use any sharp or pointed objects on the bench.
- The bench is not suitable for use by children without supervision and should not be used as a toy.
- Recommendation to regularly check the stability and condition of the bench, especially in damp rooms, and all screws and connections for tightness.
- The changing bench is optimised for use in damp rooms.
- Keep children away from the bench when it is not being used safely to minimise the risk of falls.
- Use of the bench is at your own risk. If the bench is damaged, stop using it and call in a specialist to check it.
