Safety Instructions:

- Risk of injury from sharp edges or corners of the tubular steel construction. Take care to avoid injuries caused by sharp edges and corners.
- Danger due to overloading or improper use: Recognise and avoid the risk of injury and tipping.
- Risk of slipping and falling due to insufficient stability or improper assembly. Ensure that assembly is carried out in accordance with the instructions and that all parts are firmly connected. Place the bench on a stable surface.
- Choking hazard due to small parts if used improperly. Keep small parts away from children.
- Product is only suitable for indoor use and is not protected against weather conditions.
- Regular reviews of the stability and security of the bank are recommended.
- Assembly should only be carried out by adults to avoid injury.
- Keep out of reach of children to avoid injury.
- Observe safety measures for wall or ceiling elements.
- Please pay attention to the maximum weight load of the bench to avoid overloading.
