Article Numbers: 308148, 308147, 308146, 141430

Safety Instructions:

- The product must be designed and manufactured in accordance with the general safety requirement and comply with the applicable European health and safety standards.
- Clear, understandable instructions and safety information must accompany the product, including information on possible risks.
- The product should bear a type, batch or serial number for identification.
- Immediate corrective action should be taken in the event of safety problems, including notifying consumers.
- Risk of suffocation due to improper handling, especially with safety gas spring and small parts such as castor construction; not suitable for children under 3 years of age.
- Risk of electric shock due to incorrect use of electrically conductive material and contact with electrical material.
- Risk of slipping and tipping over when used on an unsuitable surface or when sitting on a swivel chair with a locked backrest. Ensure that the castor is correctly adjusted and that the chair with five-legged base is stable.
- Use only by adults or under adult supervision recommended for children.
- Risk of injury due to improper use, especially when adjusting the seat height.
