E-Mail: info@interstuhl-group.com

Please note the technical data of the products!

Article Numbers: 308144, 308143, 308142, 141435

Safety Instructions:

- Choking hazard due to small components.
- Risk of electric shock due to the chair's electrical conductivity. Avoidance of contact with water is necessary and use in damp environments or near water is not recommended. Electrical conductivity can be dangerous if damaged, so check regularly for wear and tear.
- Ensure that the chair is stable on the surface to avoid the risk of falling.
- The seat height must not be adjusted beyond the maximum setting in order to avoid the risk of falling. Before use, ensure that the seat height is set correctly and that the safety gas spring is working.
- The product is only suitable for the intended use and must not be overloaded. Only operate in the intended area of use.
- Improper use can result in injury, so always ensure that the appliance is stable and avoid improper handling to prevent damage.
- Using the chair without the floor glides can lead to stability problems.
- Do not use aggressive chemicals to clean the ESD fabric. The product is only suitable for use in ESD-sensitive areas and must be used in accordance with the regulations.
