Safety Instructions:

- Please check the product for stability before use.
- Users should follow the instructions for seat height adjustment carefully to avoid unintentional falling off. The seat height may only be adjusted by adults and not by children.
- To ensure safety during use, the chair should be placed on a flat, stable surface.
- The chair should always be used by children under adult supervision.
- The maximum load capacity of the chair should be observed in order to avoid damage or accidents. Do not exceed the maximum user weight.
- If the fabric upholstery or the base frame is damaged, the chair should no longer be used.
- Do not stand or jump on the chair to avoid the risk of falling.
- Regularly check the seat mechanism, safety mechanisms and the entire product for signs of wear and damage.
- If used incorrectly, the product may tip over, therefore take the maximum user load into account.
- Avoid using sharp objects or playing on the chair to prevent damage.
- The product is GS-tested and should not be used commercially without the appropriate certification.
