Safety Instructions:

- This product is designed for a uniform static load of up to 400 kg. Take care not to exceed the maximum load capacity.
- Ensure that the stability of the base frame is not impaired during height adjustment. Avoid improper operation, especially during height adjustment.
- To avoid accidents when adjusting the height, the product should only be operated by one person and ensure that all parts are correctly locked.
- The base frame must not be used in conjunction with furniture or appliances that are not suitable for the intended load. Use only for the intended purpose.
- Ensure that the product is correctly installed and stabilised to prevent it from tipping over. Ensure stable and secure assembly before use.
- Ensure that there are no loose parts that could cause injury.
