### Safety Instructions:

- Observe the maximum load capacity of 200 kg to avoid overloading.
- Adjust the height of the table trolley to the desired position before use.
- When using the swivel castors, ensure that the parking brakes are activated when the table trolley is not being moved.
- Protection against improper use to prevent injuries.
- TÜV/GS-tested to ensure that all safety requirements are met.
- Ensure that the table trolley is properly assembled.
- Secure the table trolley while it is being loaded with heavy objects.
- Avoid sudden movements while pushing the table trolley to prevent it from tipping over.
- Ensure that the brakes on the castors are working correctly before using the table trolley.
- Keep the work area around the table trolley clear to minimise the risk of tripping.
