Article Numbers: 90087, 90086

Safety Instructions:

- Observe load capacity of up to 150 kg to avoid overloading.
- Ensure that the earthing and grounding devices are properly installed and functional to prevent the risk of electric shock.
- Do not load the table top beyond the permissible surface load.
- The ESD table trolley is not intended for applications that require direct interaction with water or other liquids in order to avoid short circuits.
- Observe the use of ESD protective measures when working with the table trolley.
- Small parts can cause injuries if handled incorrectly.
- Ensure that the table trolley is standing on a stable surface.
