### Safety Instructions:

- The stand frame is only intended for use in commercial environments.
- Follow the assembly instructions to avoid instability. Ensure that the upright frame is correctly fitted to prevent tipping and injury. Secure the shelf to the wall to prevent it from tipping over.
- The maximum load on the shelf must not be exceeded in order to prevent the components from breaking or buckling.
- Avoid storing objects on the shelf that could pose a safety risk.
- Wear suitable protective equipment when handling the upright frame, especially protective gloves, to avoid cutting injuries.
- The products must not be used by children. Ensure accessibility for vulnerable groups.
- Regular inspections for wear and damage are necessary. Regularly check the stability and condition of the shelving, especially after changes have been made to the storage of heavy loads.
- Keep the area around the shelf free of obstacles to avoid tripping hazards and accidents.
- Observe product safety during assembly and use. There is a risk of injury if used incorrectly.
- Enclose instructions for use and safety information.
