Safety Instructions:

- Ensure that all parts are present before assembly.
- When used on an uneven surface, additional securing is required and the product should be placed stably on a level surface.
- Before loading, check that the stand frame is properly assembled and ensure that the product is properly mounted to ensure stability and safety.
- Do not exceed the maximum load to avoid instability, structural damage or accidents.
- Observe safety precautions to avoid injury when handling the shelf, using personal protective equipment (PPE).
- The installation instructions must be made available to end users in a clear and comprehensible manner.
- Only suitable for use in dry indoor areas.
- A second person is recommended when assembling as the product can be heavy.
- Regularly check the stability of the shelf, especially under heavy loads, and ensure that the shelf is securely fastened to the wall to prevent it from tipping over.
- Take care when handling sharp edges during assembly and installation.
