E-Mail: zentrale@koehler-gmbh.de

Please note the technical data of the products!

Article Numbers: 33077, 33076, 33075

Safety Instructions:

- Ensure that diagonal crosses are installed correctly to ensure the stability of the shelving and minimise stability risks. Improper installation can cause shelves to tip or fall over, which can result in injury.
- Users should check and comply with the load capacity and load limits of the shelves (e.g. for shelves with widths of 900/1200/1500 mm) to avoid overloading and tipping.
- The product is not suitable for use by children; there is a risk of injury.
- The assembly instructions must be followed carefully and suitable tools must be used to ensure safety standards and optimum stability of the shelves and to avoid injury.
- Regularly check the stability of the rows of shelves, especially with heavy contents or in high-bay warehouses.
