

Product Safety Information

Shelf, for shelving system, stainless steel, D 500 mm

Manufacturer/Responsible Person: Köhler GmbH (Elektrotechnik), Mühlweg 13, 01619 Zeithain, Deutschland

E-Mail: zentrale@koehler-gmbh.de

Please note the technical data of the products!

Article Numbers: 32921, 32918, 32915

Safety Instructions:

- Do not exceed maximum load: 100 kg for widths of 1200 mm and 1500 mm. Maximum load capacity: B 1200 mm = 100 kg.
- Maximum load capacity: W 900 mm = 150 kg. Ensure that the maximum load capacity of the shelf does not exceed 150 kg.
- Before use, ensure that the shelf is correctly and stably installed in the shelving system. Careful assembly is required to ensure stability.
- Take suitable protective measures when assembling the shelving system to avoid injury. Avoid improper assembly in order to minimise stability and safety risks.
- Ensure that the shelf is only used for the intended applications. Ensure correct use in accordance with the manufacturer's instructions.
- Watch out for improper use and overloading to avoid accidents.
- Check for damage before use. Regularly check the condition of the shelf for signs of damage or erosion.
- Keep all safety information and instructions to hand and observe them.
