Safety Instructions:

- Place the divider out of the reach of small children and out of the reach of children under 3 years of age to prevent injuries from falling or tipping over.
- Ensure that the shelf dividers are positioned securely and stably on the shelf and follow the safe assembly instructions to prevent them from tipping over.
- Avoid sharp or heavy objects on the compartment parts that could cause injury.
- Ensure that the maximum load capacity of the shelf divider is not exceeded.
- Do not use the divider as a conductor and keep it away from electrical appliances.
- Only suitable for use in closed rooms.
- Safety information and instructions for use must be included and kept away from other persons during assembly to avoid injury.
