Safety Instructions:

- Observe the assembly instructions for the safe use of the filing cabinet FAS 2.
- Protect the cabinet from direct sunlight and moisture.
- Keep the doors closed when opening and closing in a safe environment to avoid injury.
- Make sure that the contents of the inner compartment do not overload the cabinet.
- Be aware of the risk of falling when adding or removing files on the height-adjustable shelves.
- Check the lock regularly to ensure that it is working properly.
- Ensure installation in accordance with the applicable safety standards.
- Consider suitable equipment for commercial use.
- Do not bring the product into contact with flammable materials.
- Only use the product for its intended purpose.
- Point out insufficient stability in the event of overloading or improper use.
- Avoid improper controls to prevent unauthorised access.
- The product must be stable on a flat surface.
- Ensure secure room utilisation for sensitive or important documents.
