Safety Instructions:

- Store securely and ensure that the product is properly anchored to prevent it from tipping or falling over.
- Only use the product as intended and follow the manufacturer's instructions.
- The assistance of a specialist may be required for commissioning and installation to ensure that all safety standards are met.
- Point out the need for safety precautions, especially if the product contains or protects heavy or dangerous objects.
- The product should be checked regularly for functionality, especially the locks and hinges.
- Improper handling or extensive wear and tear may impair the safety performance of the product.
