Safety Instructions:

- Ensure that the maximum load-bearing capacity of the shelf support is not exceeded to ensure structural safety and freedom from injury.
- Installation should be carried out by trained personnel in accordance with the safety instructions. Incorrect installation can lead to instability.
- During installation and use, it is necessary to wear suitable protective clothing (gloves, safety goggles) to avoid injury from sharp edges.
- In the event of damage or signs of wear, the shelf support must be taken out of service immediately and checked.
- Check the product for damage before use.
- The product should be kept out of the reach of children to avoid injury.
