Safety Instructions:

- Ensure that the additional shelf is installed correctly to prevent it from being levered out or tipping over.
- Always use the recommended installation instructions to ensure safety during use.
- Ensure that the maximum load capacity of the additional shelf is not exceeded in order to avoid injury or damage to property.
- Regularly check for damage or wear and tear to minimise possible risks.
- Do not overload the product or use it for heavy or dangerous materials to prevent it from tipping over or breaking.
- Keep the additional shelf away from hot or chemical sources to prevent material damage.
- Users should follow clear instructions for fitting and using the additional shelf.
- Ensure that the shelf load is not exceeded in order to avoid stability risks.
- Secure the shelf to the wall with fastening elements to prevent it from tipping over.
- Before use, ensure that all parts are present and undamaged.
- Installation should only be carried out by trained personnel.
- Keep the area around the cupboard clean and free of tripping hazards.
