Safety Instructions:

- Ensure that the shelf is stable and securely mounted to prevent it from tipping over.
- Prevent the shelf from being overloaded to avoid structural damage and tipping, taking into account the maximum load capacity.
- Do not use the shelf in locations exposed to extreme temperatures or moisture.
- Wear safety goggles and gloves during installation and use the correct tools.
- A stable and level base is required to prevent the shelf from tipping over.
- The use of suitable wall screws is recommended to secure the shelf.
- If the shelf is assembled, ensure that all parts are correctly fitted and secured and that the assembly instructions are followed.
- Keep out of reach of children to avoid injury.
