### Safety Instructions:

- The product must be mounted stably to prevent it from tipping over. Store heavy objects in the lower shelf area to increase stability.
- Avoid overloading the shelves to prevent structural damage and ensure that the maximum load is not exceeded.
- Check the connecting elements regularly for secure seating and strength. The product must be subjected to regular safety checks.
- The shelf may only be placed on a firm, stable and horizontal surface. It must be safe and stable to prevent accidents.
- Keep children away from the shelves to avoid injury. When using the product, safety precautions should be taken for children as small parts may be present.
- The instructions provided must be followed carefully during installation. Detailed installation instructions and safety instructions are enclosed and provided in a comprehensible language.
- Ensure that children are kept away while the shelf is being set up.
