Safety Instructions:

- The shelf must be securely anchored to prevent it from tipping over. It should be installed on a stable, level surface and heavy objects should be placed in the lower shelves to ensure stability.
- Payload limits must be adhered to in order to avoid structural damage. The shelving must not be loaded beyond the maximum load capacity.
- Assembly must be carried out in accordance with the manufacturer's enclosed instructions in order to avoid accidents. The shelf is not suitable for use by children without adult supervision.
- Children should be kept away from tools and assembly accessories. Sharp edges or corners must be properly protected to avoid injury.
- The shelf is only suitable for indoor use and should not be placed near sources of heat or moisture.
- All parts of the shelving unit must be checked regularly for damage.
- Smaller parts should be avoided to prevent the risk of choking.
