Safety Instructions:

- Secure assembly required to ensure stability of the shelf. Ensure that the end panel is mounted stably to prevent it from tipping over.
- If the shelf is not loaded correctly, it may tip over. Do not place excessive loads on the side end wall; observe the maximum permissible load.
- Indoor use only recommended.
- Edges and corners can be sharp, be careful when handling.
- Wear suitable protective equipment before installation to avoid injury.
- Keep the side end panel away from children to prevent injuries.
- Improper use can damage the end wall, which could lead to injuries.
- The product is only intended for its intended use and must not be used for any other purpose.
