Safety Instructions:

- Do not exceed the maximum load capacity of the shelf and ensure that the product is not overloaded to prevent breakage.
- Do not use for food storage.
- During assembly, ensure that the shelf is correctly and stably inserted in the shelving system to prevent it from tipping over.
- Avoid moisture and extreme temperature fluctuations.
- We recommend using the product indoors only.
- Ensure that the product is stable and securely positioned on the shelf to prevent it from tipping over.
- Follow the installation instructions carefully before using for the first time.
- There is a risk of collapse if used improperly, therefore observe the maximum load.
- Use only components suitable for the PROGRESS 500 T shelving system to avoid safety risks.
- Regularly check the product for damage or wear and tear.
- Include product information and installation instructions in a language that is easy to understand.
- Attach safety information and warning notices regarding the maximum load capacity.
