Safety Instructions:

- To avoid stability risks, do not store any heavy or dangerous objects on the shelf.
- Secure the shelving system properly to prevent it from tipping over.
- Carry out assembly in accordance with the instructions and use suitable tools to ensure safety and functionality and to avoid injury.
- Regularly check the stability of the shelving system and tighten the connections if necessary.
- The product is not suitable for use by children under the age of three.
- Observe the guidelines for safe assembly and use of the shelving system to avoid falling or instability.
- Ensure that the shelf is installed on a stable and level surface to avoid the risk of it tipping over.
- Ensure that the product complies with the general safety regulations.
- The product must contain clear instructions and safety information for use.
- The packaging of the product should contain appropriate warnings for safe use.
- The product should contain labelling information such as the name, address and contact details of the manufacturer.
- Regular inspection of products for compliance with safety requirements and technical documentation.
