Safety Instructions:

- Furniture poses a choking hazard if it is improperly constructed or adjusted.
- Risk of injury due to improper handling of moving parts (e.g. hinges, doors).
- Ensure installation on a stable, level surface and, when using floor levelling screws, ensure correct adjustment to prevent tipping and accidents.
- Do not overload the cupboard; observe the maximum load of 50 kg per compartment.
- Prevent children from accessing the cabinet and its contents to avoid injury.
- Check hinges and locks regularly for functionality to prevent unintentional opening.
- Protect the surfaces of the cupboard from water and moisture, as they can become slippery.
- Installation should be carried out in accordance with the enclosed instructions in order to avoid malfunctions.
- The use of the cabinet as a reading or standing surface is prohibited in order to prevent it from falling over.
