Safety Instructions:

- Check the load capacity (max. 35 kg) and do not load the shelf above this limit to prevent it from tipping over or breaking.
- Make sure that the frame is mounted correctly to ensure stability and prevent accidents.
- Make sure that no body parts can become trapped when adjusting the depth, height and inclination.
- Wear gloves and suitable protective clothing during assembly and use.
- Ensure that the shelf is properly fitted to the frame to prevent it from tipping or falling over.
- Regular inspection for damage and wear.
