Article Numbers: 308129, 308128, 308127, 308124

Safety Instructions:

- Avoid choking due to swallowing small parts.
- Be aware of the risk of electric shock due to improper use of the integrated gas spring.
- Be aware of the risk of slipping if not used properly on smooth floors.
- Avoid injuries caused by sharp edges or moving parts.
- Ensure safe use of the height adjustment to avoid injury.
- Clean the artificial leather according to the instructions to prevent material damage.
- Product must be designed and manufactured in accordance with the general safety requirements.
- Draw attention to the health risks of improper use.
- Use the chair on stable and level surfaces.
- Regularly inspect the moving parts for possible damage or wear.
- Provide instructions for correct operating height adjustment.
- Protect the product from moisture and direct heat sources.
- Use disinfectants in accordance with the manufacturer's instructions.
- Provide a customer service number for questions about safety and use.
- Use the chair on a stable, non-slip surface to prevent falls.
- Ensure proper use of the chair to prevent injuries.
- Provide safety instructions and assembly instructions clearly and comprehensibly.
- Carry out regular checks for wear and damage to avoid safety risks.
- Not suitable for children under the age of 14 to minimise the risk of injury.
- Do not make any improper modifications to the product in order not to jeopardise safety.
- The chair must be stable and must not be able to tip over.
- Check the gas spring and its adjustment regularly for proper functioning.
- Observe the maximum weight load before use to avoid damage.
- Carry out maintenance cleaning with suitable disinfectants to extend the durability of the material.
- Do not sit on the chair during height adjustments to avoid injury.
