Safety Instructions:

- Ensure that all moving parts can be used safely and without risk of crushing and follow safety instructions for correct use.
- Ensure that the chair is at the correct height and avoid the risk of injury from incorrectly adjusted or defective mechanisms. Observe the safety instructions for using the gas spring for height adjustment. Beware of unstable sitting position and tipping over if not locked correctly. Do not adjust beyond the recommended dimension (620-900 mm).
- Products should only be used for their intended purpose and should be checked regularly for stability and safe use to avoid injury.
- Imitation leather should be checked regularly for cracks or wear to avoid skin irritation. Cover is resistant to disinfectants, avoid aggressive cleaning agents.
- Provide instructions for the correct assembly and care of the chair.
- Avoid risk of suffocation due to improper use and faulty construction.
- Long-term use could lead to ergonomic problems, so regular breaks are recommended.
- The product is designed for use in an industrial environment. Ensure that no hazards arise from external factors (e.g. other devices).
