Safety Instructions:

- Observe the maximum shelf load of 500 kg to avoid structural damage or injury. This shelf load only applies when the load is evenly distributed (mentioned twice, consolidated once).
- Ensure that the product is used on a level surface, as it may tip over on an uneven surface.
- Suitable for storage, but not for use by persons.
- The edges can be sharp, so handle with care.
- Take safety precautions against unstable loads.
- Use suitable personal protective equipment when handling heavy loads.
- Check for damage before use.
