Safety Instructions:

- Lifting and moving heavy loads can cause back injuries. Use suitable lifting and transport methods.
- Ensure that people are standing within the movement range of the table trolley.
- Use on uneven or slippery floors can lead to falls. Ensure that the surface is level and stable.
- Before use, ensure that the wheels are working properly and can be locked.
- Only use the table trolley for its intended purpose and within the specified load capacity.
- Keep your hands and fingers away from moving parts to avoid crushing them.
