Article Number: 882685

Safety Instructions:

- The load capacity of 250 kg should be taken into account when loading and unloading to avoid overloading.
- Before use, ensure that all castors are working properly to prevent falls.
- When travelling with the trolley, ensure that the castors are locked to prevent the trolley from rolling away unintentionally.
- Small parts and edges should not have sharp edges in order to avoid injuries.
- The product must not be used near moisture or wetness in order to avoid damage to the material components.
