Safety Instructions:

- Ensure that the clamp is securely and properly fastened to prevent slipping and accidents.
- Only use the clamp for its intended purpose and for the intended materials in order to avoid injury and damage.
- Keep children away from the clamp and do not use the product without adult supervision to minimise the risk of injury.
- Before use, check the product for damage or anomalies that could affect safety.
- Keep the clamping areas clean and free of foreign objects to ensure proper function.
- Avoid overloading the clamp beyond the maximum load limit to prevent material failure.
- Protect the product from harmful environmental influences and avoid using it in damp or wet areas to prevent the risk of electric shock.
- Read the user manual and safety information carefully before using the clamp.
- Not suitable for use by children; product is not suitable for children under 3 years of age due to small parts.
- Pay attention to finger protection when tightening and avoid tightening with excessive force to prevent injury and material failure.
- Caution: Moving joints of the clamp can cause crushing.
