Safety Instructions:

- Caution: Sharp blades. Risk of injury when handling and during use.
- Not suitable for use by children under 14 years of age. Keep the device out of the reach of children.
- Before use, ensure that the appliance is correctly and stably mounted to prevent accidents and falling over.
- Always store the blades safely or cover them after use.
- Only use for the intended purpose. Misuse can lead to dangerous situations.
- Only use the appliance with appropriate personal protective equipment such as protective gloves.
- Check blades regularly and replace immediately if damaged. Ensure that blades are inserted securely and correctly.
- Do not overload - do not exceed the maximum cutting width.
- To minimise the risk of injury, only use the specific blades supplied for this appliance.
- Keep the work area free of foreign objects to avoid accidental injury.
- When mounting the appliance on the packing table, secure it to ensure stability and safety during use.
- Take the strain off the wrist when using the rotating operating handle to minimise ergonomic problems.
