Please note the technical data of the products!

Article Number: 51857

Safety Instructions:

- The maximum load capacity of the table is 500 kg. Ensure that the load is evenly distributed.
- The table is height-adjustable. Make sure that the height is set correctly to ensure safe use.
- Avoid improper use, as this can lead to instability.
- To avoid injury, please do not use the table in areas where it could be knocked over or damaged.
- The rubber protectors on the feet prevent slipping and protect the floor. Check their condition regularly.
