Please note the technical data of the products!

Article Numbers: 164468, 164467, 164466, 164465

Safety Instructions:

- Not suitable for food packaging.
- The labels should not be used on the skin.
- Avoid contact with solvents that could damage the label.
- Keep away from children to avoid the risk of choking on small parts.
- Ensure that the substrate is clean and dry to ensure optimum adhesion.
- Not suitable for human consumption.
- Risk of suffocation if used incorrectly, especially by children.
- Avoid direct contact with food.
- Willingness to take back products in the event of quality or safety problems.
- Safety information and instructions for use should be provided in plain language.
- Avoid applying to uneven or particularly rough surfaces.
- Use at temperatures below -40°C or above 150°C may impair adhesion.
- Know the maximum load to avoid peeling or failure of adhesion.
- Ensure that the label is designed in accordance with the technical and safety requirements.
- Label the product and the manufacturer on the packaging or in an accompanying document.
- The labels are not suitable for sticking on hot surfaces or in direct contact with food.
