Safety Instructions:

- Carry out safe installation and use in accordance with the instructions supplied.
- Wear safety goggles and suitable protective gloves when using the product.
- Installation may only be carried out by trained personnel.
- Do not use the product under extreme conditions or in aggressive environments.
- In the event of leaks or other problems, discontinue use immediately and consult a specialist.
- Ensure that the ball valve is properly installed and maintained to prevent leaks.
- Do not overtighten to avoid damaging the thread or the product.
- Protect the product from frost and extreme temperatures to prevent material damage.
- Read the operating instructions carefully and keep them in a safe place.
- Before use, ensure that all connections are tight and sealed.
- If the tap is damaged, it should be replaced immediately to prevent leaks and injuries.
- Wear suitable protective equipment when installing or maintaining the tap.
- Use only in accordance with the manufacturer's instructions to minimise safety risks.
