Safety Instructions:

- Ensure that the table is positioned on a stable and level surface to prevent it from tipping over.
- Regularly check the stability of the table and tighten any loose screws.
- Avoid excessive loads on the table top to prevent damage.
- Ensure safe cable routing to minimise tripping hazards and prevent electric shocks.
- Hide cables in the cable routing provided and keep cables and electrical components out of reach of water.
- Only use the table for its intended purpose and as a work surface, not as a climbing aid or for supporting heavy objects.
- Read the enclosed instructions carefully before setting up or using the product to ensure safe use.
- Avoid using the table in areas with high humidity to prevent damage.
- Keep the table surface clean and dry to avoid slipping and material damage.
- Assembly should only be carried out in accordance with the enclosed instructions and with suitable tools to ensure safe use.
- Keep children away from the installation areas to avoid injury.
- Be careful with sharp edges of the table tops to prevent injuries.
- Ensure that the cable duct is correctly closed to avoid electrical accidents.
- Avoid standing on the table or placing heavy objects on it to prevent injuries and ensure stability.
- Cleaning agents should be used in accordance with the manufacturer's instructions in order to avoid surface damage.
- Only use recommended materials that are free from harmful substances.
- Regularly check the assembly and function of the levelling screws and the stability of the table frame.
- Ensure that the product is used in dry indoor areas and is kept away from direct moisture and heat sources.
- Carry out regular inspections to ensure the safety and functionality of the table.
- Ensure that the cable duct is not overloaded to avoid the risk of fire.
- Read the assembly instructions carefully before assembling the table.
