Article Numbers: 465138, 465137, 134665, 134664

Safety Instructions:

- Container contains flammable and corrosive liquids, risk of fire and explosion, therefore store safely and keep away from heat sources.
- Safety information: Use only for the intended purpose.
- Do not use the container if it is damaged.
- Ensure that the container is clean and dry before use.
- Use the earthing connection properly to avoid the risk of ignition and electrostatic charges.
- Include safety information in a language that is easy to understand.
- Use only with earthing connection and flame arrester as well as self-closing pouring openings to prevent leakage.
- Observe automatic pressure equalisation and watch out for overpressure in the container; in the event of overpressure, act in accordance with the operating instructions.
- Do not store at high temperatures and protect from direct sunlight in a cool, dry place.
- Prevent access by unauthorised persons.
- Observe the safety data sheet for transported liquids.
- Corrosive liquids cause severe skin and eye irritation, wear protective clothing and eye protection.
- Follow the instructions for safe handling, as failure to do so may result in serious injury or damage to property.
