Please note the technical data of the products!

Article Numbers: 134649, 134648

Safety Instructions:

- Only store and transport flammable substances in tightly closed containers.
- Avoid temperatures above 60°C to prevent overheating.
- Use approved ventilation systems to ensure sufficient air exchange.
- Regularly check for leaks and comply with all safety regulations.
- Do not store the product in sunlight or humid environments.
- Prevent access for unauthorised persons and children.
- Provide fire extinguishers near the storage area.
- Be aware of the risk of suffocation due to improper handling of closed containers.
- Risk of reaction on contact with flammable liquids and their vapours.
- Take care when moving empty containers.
- Observe safety precautions when filling or emptying.
- Technical forced ventilation required to avoid overpressure or underpressure.
- Observe the maximum load capacity to avoid structural damage.
