Safety Instructions:

- Use suitable protective gloves, protective clothing, safety goggles and respiratory masks when applying the paint to avoid skin and respiratory tract irritation.
- Avoid contact with skin and eyes. In case of contact, rinse with soap and water (skin) or thoroughly with water (eyes); in case of eye contact, consult a doctor.
- Only use the paint in well-ventilated areas to avoid inhaling vapours, as these can be harmful to health. Also ensure this for outdoor applications.
- Store the product in a cool, dry and well-ventilated place, away from sources of ignition and out of the reach of children and pets.
- Dispose of empty containers and excess paint residues in accordance with local regulations for hazardous substances to avoid environmental pollution.
- Varnish and solvents should be checked for compatibility with the container used before use.
- The painted surfaces should cure sufficiently before they are exposed to the weather or mechanical loads.
- Carefully read and observe the safety instructions and the safety data sheet before use.
- In case of accidental ingestion, contact a doctor immediately and show the packaging.
- Make sure to keep the surface clean and dry before painting.
