**E-Mail:** sales@var.eu

Please note the technical data of the products!

**Article Numbers:** 72652, 72651

### Safety Instructions:

- Always secure the trolley before working on it or loading it.
- Avoid overloading to prevent the trolley from tipping over.
- Make sure that the brakes are working properly before you park the vehicle on a slope.
- Check the castors regularly for damage and functionality.
- Keep the work area free of obstacles to prevent falls.
- Caution: Risk of falling if used incorrectly or loaded unevenly.
- Ensure that the trolley is standing on a level surface and that the castors are working safely.
- Use by children under adult supervision recommended.
