Safety Instructions:

- Secure storage of cash and valuables against theft.
- Use only with the correct key or PIN for the electronic lock.
- Ensure that the safes are properly anchored to prevent them from tipping over.
- Include safety instructions in an understandable language.
- Observe restrictions when using heavy equipment for relocation.
- The safes are not suitable for the storage of hazardous objects.
- Safety warning: Use only for the intended purpose.
- The appliance can be heavy. Ensure that it is correctly anchored to prevent it from tipping over.
- Keep the safe closed when it is not in use to prevent unauthorised access.
- Regularly check all security mechanisms and locks for functionality.
- Warning: This is not a toy. Keep children and pets away from the safe.
- Report damaged parts or safety interventions immediately.
- Find out about the correct procedures for installing and using the safe.
