Please note the technical data of the products!

Article Numbers: 211237, 211236, 211235, 211234, 211233, 211232, 211231, 211230

Safety Instructions:

- Ensure that the barrier is used safely and that the centrifugal brake functions correctly to prevent the belts from snapping back quickly.
- Do not use beyond the recommended belt extension length of 2.0 m to avoid accidents.
- Maximum positioning of the posts at a distance of 2.3 m to prevent the risk of tripping.
- Note the panic lock: The latch may open under heavy pressure; ensure that the area is clear and that all users are informed.
- Place the product out of the reach of children to minimise the risk of injury and suffocation from small parts.
- Make sure that the post stands securely to prevent it from tipping over.
- Observe the weight of 12 kg and follow suitable carrying and storage instructions.
- Avoid the risk of suffocation due to flexible and improperly handled straps.
- Reduce the risk of injury due to uncontrolled snapping back of the straps.
- Offer emergency measures if the barrier fails and use the panic lock function in an emergency.
- There is a risk of electric shock from electrical components if used incorrectly; follow the safety instructions carefully.
