Article Numbers: 211267, 211266, 211265, 211264, 211263, 211262, 211261, 211260

Safety Instructions:

- Observe the centrifugal brake to prevent injuries caused by rapid snapping back. The centrifugal brake cannot completely prevent snapping back and can lead to injuries if handled incorrectly.
- Observe the panic lock to prevent unintentional release or sudden movements under pressure. Maintain a safe distance to prevent sudden malfunctions.
- Protect products from water and extreme temperatures.
- Do not position barriers near stairs or dangerous areas. Avoid tripping hazards due to unsafe positioning. Ensure that the posts are correctly aligned and stable.
- Do not pull heavy objects over the belt or overload the belts by using the panic locks incorrectly.
- Ensure that the product is not used by children or is within their reach to minimise the risk of injury and choking. Watch out for small parts that could be swallowed.
- Observe the maximum belt extension length of 2.0 m to avoid hazards.
- Avoid the risk of electric shock by not installing any electrical components in the vicinity.
- Teach users the correct handling and placement of the posts according to the user instructions.
- Keep the harness and fittings in perfect condition to ensure safety.
- Not suitable for children under 3 years of age.
