Please note the technical data of the products!

Article Numbers: 35870, 35867, 35859, 34605

Safety Instructions:

- The product must be designed and manufactured in accordance with the general safety requirements. Ensure that the product complies with the general safety requirements in accordance with the regulation.
- An internal risk analysis must be carried out before placing the product on the market.
- Safety information and clear instructions must be included in a comprehensible form. Read the operating instructions carefully before use.
- The load-bearing capacity of each panel must not be exceeded during installation and use. Caution: Do not overload. Load capacity per panel is 150 kg with distributed load.
- Use only for the intended purpose. Not suitable for use by children.
- Ensure that installation is carried out in accordance with the instructions to avoid injury.
- Check the structure regularly for damage or wear and replace damaged parts immediately.
- Risk of suffocation due to improper handling of heavy steel panels.
- Risk of injury due to improper use or inadequate securing when transporting the panels.
- The products should be stored and transported safely to prevent damage.
- Caution: Heavy product, observe safety precautions when lifting.
- There is a risk of injury if used incorrectly.
