

# Product Safety Information

## Steel panel WR 600, D 1050 mm

**Manufacturer/Responsible Person:** Fritz Schäfer GmbH, Fritz-Schäfer-Straße 20, 57290 Neunkirchen/Siegerland, Deutschland  
**E-Mail:** info@ssi-schaefer.com

Please note the technical data of the products!

**Article Numbers:** 35877, 35869, 35866, 34617

### Safety Instructions:

- Observe the load capacity of 150 kg per panel with a distributed load and avoid excessive loads.
- Ensure correct installation and use in accordance with the instructions to avoid structural and stability risks.
- Insert panels correctly into longitudinal beams to ensure stability.
- Product information: When using on shelves, ensure that the panels are inserted correctly.
- Provide maintenance instructions for the surface protection (sendzimir galvanised) to prevent rust formation.
- Ensure that the product conforms to the specific safety requirements in accordance with the EU regulation.
- Only use the product on load-bearing and stable surfaces.
- The edges of the product may be sharp; avoid the risk of cuts.
- Secure the panels during installation to prevent them from tipping over or slipping.
- Wear suitable personal protective equipment such as gloves and protective footwear when handling heavy panels.
- Ensure that children do not play with the panels or their components, as there is a risk of suffocation from small parts.
