Please note the technical data of the products!

Article Numbers: 35908, 35905, 35902, 35899

Safety Instructions:

- Check the load capacity of 150 kg/sqm before use and ensure that the load is evenly distributed. Avoid overloading the chipboard above the recommended load capacity of 150 kg/sqm.
- The plate must be securely mounted on a stable, level surface to prevent it from falling or tipping over. Use suitable fasteners.
- Do not use the plate in damp conditions. The product is only suitable for indoor use to avoid deformation or damage.
- Ensure that all materials used do not contain hazardous chemicals. The chipboard should not be used improperly in order to minimise safety risks.
- Not suitable for use by children as there may be small parts and sharp edges.
- Be careful when handling the plate to avoid the risk of suffocation.
- Wear protective equipment (gloves, safety goggles) during installation and use to avoid injury. Take protective measures when handling the chipboard.
- Include clearly understandable information and safety instructions, particularly with regard to use and installation. Read the safety instructions supplied carefully before using the product.
- A suitable underlay should be used to protect the surface and increase durability.
