### Safety Instructions:

- Use under adult supervision recommended.
- Protect the product from fire and extreme heat.
- Not suitable for children under 3 years of age due to risk of strangulation and suffocation.
- Plate may have sharp edges. Handle with care to avoid injury.
- Product must be safe to process in accordance with the standards for materials.
- Observe load capacity of 150 kg/sqm with distributed load.
- Safety information must be included in the scope of delivery.
- Please note that the plate can break if used improperly.
- Recommended storage temperature: between 5°C and 30°C to avoid deformation.
- Make sure that the plate is well mounted to avoid accidents.
- Avoid contact with water to prevent damage to the plate.
- The plate should be used in well-ventilated areas, especially when cutting or machining.
- No materials containing formaldehyde have been used, but the general precautionary measures for wood-based materials should be observed.
