Article Numbers: 35910, 35907, 35904, 35901

Safety Instructions:

- The plate should only be used in accordance with the intended specifications to avoid injury from improper use.
- The product must be stored in a dry condition to prevent deformation or damage.
- The load capacity must not be exceeded: Observe maximum load of 150 kg/sqm with distributed load.
- No direct exposure to moisture to avoid swelling or mould damage.
- Recommended safety instructions must be included with the product to ensure safe use.
- Product instructions for storage and handling should be clear and understandable.
- Take suitable protective measures (safety goggles, dust mask) during processing, e.g. when cutting to size.
- Do not store the product near sources of fire.
- Ensure suitable storage to avoid damage.
- Take care when handling sharp edges.
- Avoid using it as a partition or for structural support, as this could lead to deformation.
